Conditioning Hair Glossing Spray

Here we feature a conditioning hair glossing spray that can be used in a spray bottle. A touch of **Lotioncrafter LC1684 Cyclomethicone (and) Dimethicone** offers conditioning while **Lotioncrafter 1550 Phenyl Trimethicone** boosts the sheen to a high level. Volatile **Lotioncrafter LC995 Cyclomethicone** is the carrier for these ingredients. Note that pumps can vary in their ability to properly mist some formulations. Adjust the level of **LC1684** down in the following formulation if this proves to be a problem for your pump assembly.
